

Summer Student Orientation

National Institute on Drug Abuse Intramural Research Program

Stephen J. Heishman, Ph.D., Director
Office of Education and Career Development
Room 2A641, ext. 2458
heishman@nih.gov

Mentoring

- What is a mentor?
- Knowing a good mentor when you meet one
- Seek out more than one mentor
- Communicating your research findings
- Where do you want to be in 3-5 years?

Conducting Ethical Research

- Responsible Conduct of Research course
- Documentation of data
- Prohibited research
 - ✓ human fetal tissue
 - ✓ human cloning
- Can't leave with govt. records, equipment

National Institutes of Health

The mission of the NIH is to uncover new knowledge that will lead to better health by:

- Conducting research in its own laboratories (intramural)
- Providing support for research conducted at universities, medical schools, and research institutions (extramural)
- Training research investigators

NIH consists of 27 Institutes and Centers

NIH has 75 buildings on 322 acres in Bethesda, Maryland

National Institutes of Health Biomedical Research Center Baltimore, MD

Intramural Research Programs

- NIDA
- NIA

A faded, blue-tinted image of a multi-story building with a classical architectural style, featuring columns and a pediment, is visible on the left side of the slide.

NIDA Intramural Research Program

Research Branches

- Clinical Pharmacology & Therapeutics
- Neuroimaging
- Behavioral Neuroscience
- Integrative Neuroscience
- Molecular Targets & Medications Discovery
- Cellular Neurobiology
- Molecular Neuropsychiatry

How many researchers are at NIH?

1250 intramural research laboratories

1000 summer students

500 postbaccalaureate trainees

100 medical students

300 graduate students

4,000 postdoctoral fellows

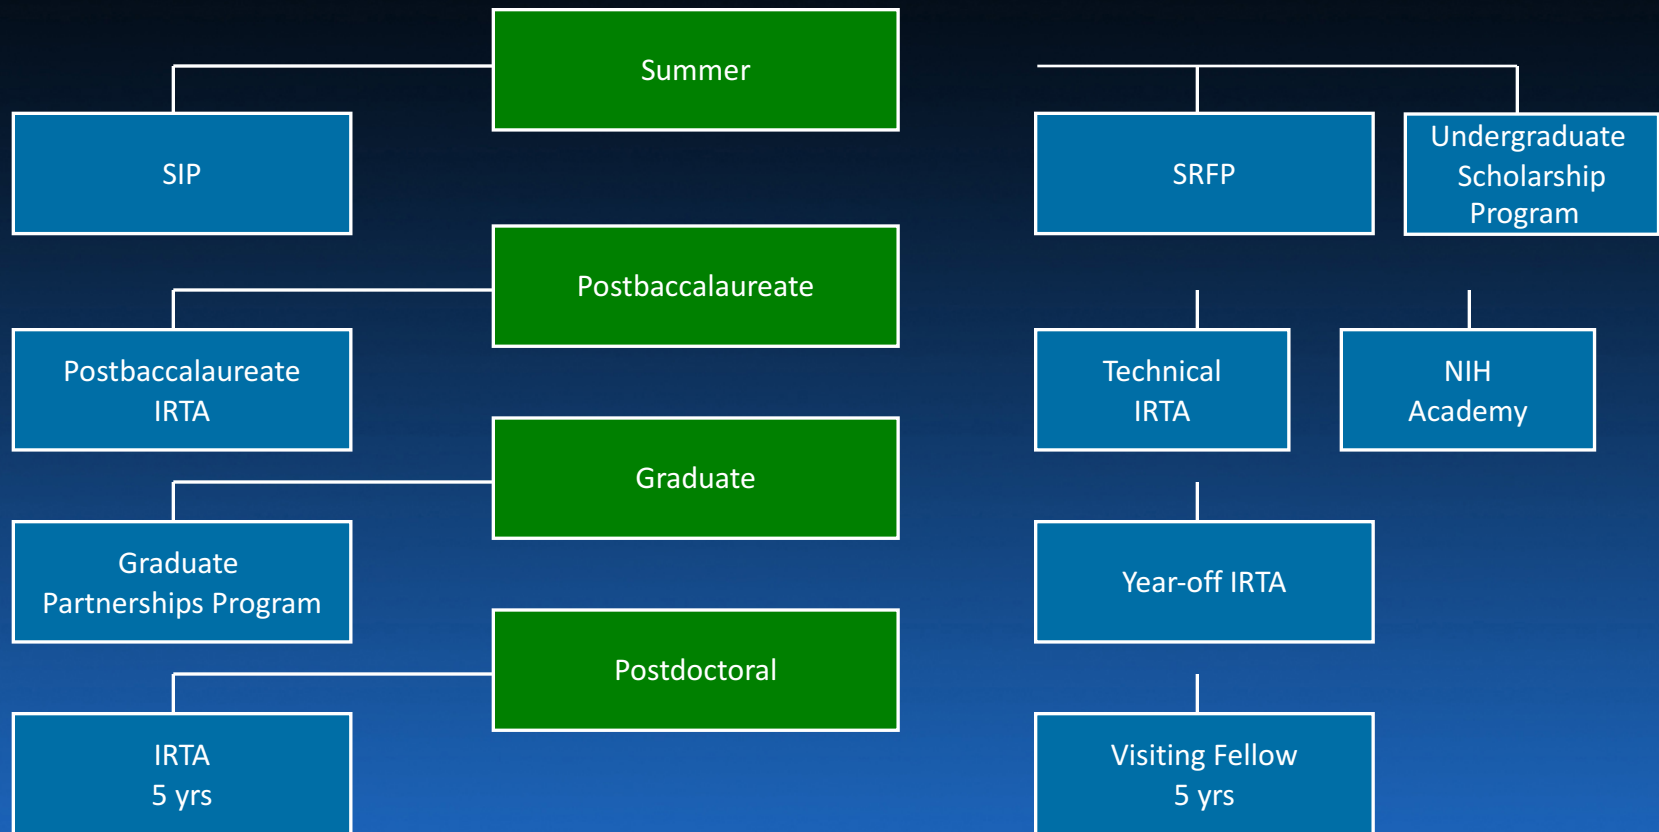

200 staff clinicians

800 staff scientists

300 tenure-track investigators

1,200 senior investigators

Intramural Training Programs

Postbaccalaureate Program

Postbaccalaureate IRTA

- Plan to pursue MD, PhD, or MD/PhD
- Continuous review of applications – no deadline
- Eligible for 3 years after Bachelor's degree or 6 months after Master's degree
- Spend up to 2 years at NIH with possible 3rd year extension

NIH Academy Program

- Focus on health disparities
- Fellowship or certificate

What can you expect?

- Learn scientific skills
- Gain experience in presenting scientific results
- Develop an understanding of the ethics of biomedical research
- Gain info on applying to graduate or medical school

What can you expect?

- Be a member of basic science or clinical research teams
- Receive close mentoring from senior scientists working on the frontiers of biomedical research

What can you expect?

- Attend lectures and seminars on the latest advances in addiction research
- Present your work at the annual Poster Day
